TECH SKILLS

- Python
- Java
- HTML
- CSS
- JavaScript
- MySQL
- Figma
- Photoshop
- MS Office
- Unreal
- Blender
- Unity

SOFT SKILLS

- Leadership
- Teamwork
- Time Management
- Effective Communication
- Problem Solving

LANGUAGES

English
Sinhala

ABOUT ME

Computer Science undergraduate with a strong interest in software development, gaming, and technology. Enthusiastic about programming, problem-solving, and building efficient systems. Passionate about game development and exploring how technology powers immersive gaming experiences. I'm eager to apply my skills to real-world challenges, keep up with industry trends, and grow as a developer through continuous learning and hands-on experience.

EDUCATION

Lyceum International School (Nugegoda) 2012 - 2024
Cambridge O-Level Examinations – 2023

University of Westminster | IIT Campus 2023-present
Foundation Certificate Course
B.Sc. (Hons) in computer Science

PROJECTS

Flight Route Optimization Program (Individual) 2024

- Developed a Python program to manage and analyze international flight routes by displaying all possible paths and calculating the least-duration route between countries using data structures and user input validation

Technologies Used: Python

Tic-Tac-Toe game (Individual) 2024

- Developed a Python-based console Tic-Tac-Toe game with two player functionality, menu system, session tracking, gaming history logging, and optional HTML result export.

Technologies Used: Python

LoopWardrobe App Interface 2024

- Designed a mobile app prototype in Figma to promote clothing made from recycled textile waste, focusing on sustainability, user-friendly design, and environmental awareness.

Technologies Used: Figma

Personal Task Manager program (Individual) 2025

- Developed a multi-staged Personal Task manager in Python featuring CRUD operations, persistent storage using file handling and JSON, and a dynamic Tkinter GUI for task viewing, searching, filtering and sorting.

Technologies Used: Python, Tkinter, JSON

Allianz Insurance Lanka Ltd

Silent Sea Website2025

- Developed “Silent Sea”, themed around the UN Life Below Water goal, featuring a styled feedback form, navigation bar, and front-end validation.

Technologies Used: **HTML, CSS, JavaScript**

AutoFix2026

- The second-year group project, currently underway, involves developing a full-stack web-based vehicle service management platform connecting vehicle owners and garages, with a React frontend and Node.js backend, implementing secure authentication, role-based access control, booking management workflow, digital service history, and AI chatbot integration.

Technologies Used: **React, Node.js, Supabase**

Smart Campus Sensor & Room Management API2026

- Developed a RESTful backend API for smart campus room and sensor management, featuring room allocation, sensor registration, real-time sensor value updates, historical reading tracking, custom error handling, and endpoint testing with Postman to ensure reliable API performance and data consistency.

Technologies Used: **Java, JAX-RS, Maven, Postman, JSON**

The Quiet School (Individual)2026

- Designed and developed a first-person psychological horror game set inside an abandoned school, exploring themes of trauma and distorted memory through atmospheric lighting, sound design, and Blueprint-based puzzle progression systems.

Technologies Used: **Unreal Engine, Blueprint Visual Scripting, Level Design, Blender**

LEGO Backrooms: The Missing Brick (Individual)2026

- Developed a 3D Unity escape room game featuring physics-based interactions, ray-casting puzzles, HUD systems, and trigger-driven mechanics within a structured nine-room progression.

Technologies Used: **Unity, C#**

ACHIEVEMENTS

- Foundation Certificate from IIT
- Python for Beginners E-certificate, Moratuwa University
- Web Design for Beginners E-certificate, Moratuwa University
- Python Programming E-certificate, Moratuwa University

EXTRACURRICULAR ACTIVITIES

- Participated in school-level athletics competitions
- Represented school in badminton tournaments
- Member of Rotaract Club of IIT(2024-present)
- Volunteered for IIT Cutting Edge
- Logo Designer and Animation Character Designer
- Actively involved in online gaming and modeling
